McGraw Edison / Cooper

Generator

Liab evidence: Trucks seen at A/S by Wm Reiser
Don Hull sez he took open, 55-gal drums of
paint sludge to A/S (6-10 drums @ $\frac{2}{3}$ - $\frac{3}{4}$ full,
every six weeks) - worked there 1967-76. He
took drums to landfill from 1966-76. City Rept of 1967 sez
township visited dump on 7/11/67 to view refuse from McGraw Ed.

Stanley Semmer - boxes & scrap taken to landfill

Interview w/ Lloyd Mosher - hauled to ALS from McGrawEd - 5 bar/
day everyday for 10 years. barrels had scrapings / liquids from
McGraw's paint line (no paperwork for this).

McGRAW-EDISON COMPANY/COOPER INDUSTRIES

CERCLA Classification

This company was identified by the former landfill operator as having disposed of waste materials at the site (PC 26-2).

Address and Telephone Number

McGraw-Edison Air Comfort Division
704 North Clark
Albion, MI 49224
(517) 629-2101

McGraw-Edison Company
Cooper Industries, Inc
1001 Fannin, Suite 4000
Houston, TX 77002

Company Status

McGraw-Edison existed as a separate corporation during the operation of the landfill. The 1980 annual report reflects McGraw-Edison's status as an independent corporation, with assets of over \$1 billion dollars (CR 33-1). McGraw-Edison was purchased by Cooper Industries in 1985, and the McGraw-Edison Corporation was dissolved in May 1986. This new ownership is indicated in the 1986 and 1987 annual reports (CR 34-1; CR 35-1). Cooper Industries reported total assets in the 1987 annual report exceeding \$3 billion (CR 17-2). Both Cooper Industries and McGraw-Edison manufacture electrical equipment.

Registered Agent

The Corporation Company
